Two Injured in RV Fire at Mac's Lake Resort Campground

On Thursday, November 26, 2026, at approximately 2:43 PM, the LaGrange, South Oldham, and Ballardsville Fire Departments, along with Oldham County EMS, responded to a reported structure fire involving an explosion at 1625 Water Works Road in LaGrange. The property is commonly known as Mac's Lake Resort RV Campground.

Upon arrival, firefighters encountered a large recreational vehicle (RV) well involved in fire. Both occupants had exited the RV prior to the arrival of emergency personnel.

An elderly female occupant sustained severe burns and was transported by a neighbor to Baptist Health LaGrange. An elderly male occupant also sustained burn injuries and was treated and transported by Oldham County EMS to Baptist Health LaGrange.

Several neighboring residents reported hearing and feeling multiple explosions associated with the incident.

Responding firefighters quickly brought the fire under control and extinguished the blaze.

The Oldham County Fire Marshal's Office is currently investigating the incident to determine the origin and cause of the fire.

Our thoughts are with the injured occupants and their families during this difficult time.
