

LAGRANGE FIRE & RESCUE

309 North First Avenue, LaGrange, KY 40031 • 502-222-1143 Phone • 502-222-3168 Fax

PUBLIC NOTICE

The LaGrange Fire & Rescue Department will be testing fire hydrants throughout the Fire Protection District beginning early June through late October between the hours of 7AM and 5PM. This testing process may cause your household water to become discolored. In the process of flushing hydrants, sediments may get stirred up and pass into your water system. If this occurs, please run your water until the discoloration disappears. Should you have questions regarding this process, please contact your local water district or the LaGrange Fire & Rescue Department at (502) 222-1143.
